

PONG[®] TABLE

LET'S BRING BACK THE MAGIC

Today with the most entertainment products being quite isolating, this Atari PONG table is an embodiment of turning back the time and bringing back the personal side of games. Developed as a tribute to the Generation X and its most iconic game, this table brings together the high-tech mechanical engineering of today and everyone's beloved game from the '80s.

LET'S MAKE IT A REAL GAME

The PONG TABLE replicates the same experience of the original game back in the day. Loaded with retro sounds, bouncing lights and rigid, high-tech mechanical engineering. Featuring music streaming and USB charge sockets. Turn it off, close the custom designed lids and you get a neat and retro looking coffee table.

COFFEE TABLE

THE MAGIC

The classic PONG Game in a cocktail table – designed for bars, pubs, restaurants and entertainment venues. Creates a lively atmosphere that attracts crowds and keep guests entertained.

Featuring table-top lift, drink holders and USB ports. Can be played solitaire against AI or against a friend.

IS BACK

COCKTAIL TABLE

Great for FECs, arcades and a wide variety of LBE locations. Coin-operated with ticketing option, can be played by 1 or 2 players. Featuring elevated height (can be played without stools) and a sleek rounded chassis. Retro sounds and back-border lights. Numerous operator settings and customizations. Table-top lifts für easy playfield access.

ARCADE TABLE
